<p><u>Minor</u> REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>Yes</p>	
<p><u>Optional/General</u> comments</p>	<p>It is an interesting manuscript about Fish nutritional content and Human health. It merits to be published. However, please consider the following observations and suggestions before acceptance: i) Check the goals of the article in the Abstract. It seems that there aren't stated. ii) In the introduction as well it should be added the objective of this article, mention what was afforded to discuss and show. iii) Please check the following title "Contribution of fish to the provision of animal-derived protein during the period of 2013-15" and the content associated. There is missing description, redaction, mentioning the Figures. Iv) As general observation, there is missing redaction describing the information. V) It is a suggestion, but please check the information focused on malnutrition; because there is missing correlate information fisheries vs malnutrition hot spots, or availability of fishes and malnutrition. Some information related to discuss about how it could be incorporated the nutritional factor from fishes.</p>	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Are there ethical issues in this manuscript?</p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
