If you have suggestion of additional references, please mention in the review form.</b></p> <p><b>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</b></p>	<p>The manuscript is important for the scientific community because it builds on the work of others and provides a platform for others to build upon it as well thereby creating knowledge continuously</p> <p>The title was not apt. I asked author to consider the following: Development and Standardisation of a Livelihood Security Scale to Assess the Success of a Youth-based Project</p> <p>Abstract left out methodology applied to obtain the standardised scale; it had some structural defects; some sentences need to be recast and should be written using single line spacing among other minor errors. Please see the submitted reviewed manuscript for more comments</p> <p>It is to a large extent</p> <p>Yes, I do.</p> <p>References are not sufficient. The manuscript lacks relevant citations. Author needs to cite relevant authors in the body of the work. The few references are dated.</p> <p>Author needs to define 'Livelihood security' in the Introduction early enough</p> <p>Some questionnaire items under 'Physical Security' are economic in nature and Psychological security seemed more academic</p> <p>Acronyms in the questionnaire need to be written in full at the first instance</p>	
<p><b>Minor</b> REVISION comments</p> <p>1. <b>Is language/English quality of the article suitable for scholarly communications?</b></p>	<p>Author would need to recast some sentences, a few of which are not grammatically correct</p>	
<p><b>Optional/General</b> comments</p>	<p>Please see manuscript for other comments</p>
