

Review Form 1.7

Journal Name:	Journal of Pharmaceutical Research International
Manuscript Number:	Ms_JPRI_107153
Title of the Manuscript:	The Influence of Color on the Process of Learning: An Analysis of Medical students' perception
Type of the Article	

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>1. Importance: They evaluated the perception of medical students about the different colors employed for the text and background that ease the process of readability and learning.</p> <p>2. Title: Non-attractive and preferred to be concise and modified into “Medical Students' Perception of Colors Influence on the Learning Process”.</p> <p>3. Abstract: Provide an opening statement of one or two short sentences before illustrating the aim. Some modifications were recommended to enhance the readability and understanding.</p> <p>4. Structure of the manuscript:</p> <ol style="list-style-type: none"> Keywords: Clear and properly arranged in alphabetical order. Introduction: Properly displayed in three paragraphs i.e., 1. Introduction 2. Significance of the study, and 3. Aim of the study. Some modifications were suggested to enhance readability and understanding. The aim: Clear. A few modifications were recommended to enhance the readability and understanding Materials and methods: Please notice the following: <ul style="list-style-type: none"> MUST provide other socioeconomic conditions that might affect the participant's physiology and influence the choice of color (age, living standard, medical conditions, and social state). MUST provide the tabulated questionnaire used in the study. Provide a statistical analysis section with the software used for the analysis, a reference for it, and the statistical model. Some modifications were suggested to enhance readability and understanding. Results: Please notice the following: <ul style="list-style-type: none"> Only numbers less than 9 are the ones written in letters. No need to write the numbers in letters to reduce the text as much as possible. Some modifications were suggested to enhance the readability and understanding of the text. Discussion: Concise and clear with moderate speculation and comparisons. Some modifications were suggested to enhance the readability and understanding of the text. Conclusion: Clear. Some modifications were suggested to enhance the readability and understanding of the text. Tables: Well-presented and organized. Some modifications were suggested to enhance the readability. <p>5. Scientific Soundness: The manuscript was able to search for a big problem that faces our daily life without us feeling it either in the academic, research field, graduate & postgraduate studies, or our daily life patterns.</p> <p>6. References: Sufficient as 54.5% (6 out of 11) of the listed references were published in the past five years.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>General view: The manuscript was written in weak English and grammar. Professional copyediting and proofreading, have to be carried out before resubmission to achieve publishing value.</p>	
<p>Optional/General comments</p>
