

Review Form 1.7

Journal Name:	International Journal of Plant & Soil Science
Manuscript Number:	Ms_IJPSS_107352
Title of the Manuscript:	GROWTH AND YIELD OF TEA (<i>Camellia sinensis</i>) AS INFLUENCED BY NANO UREA DURING PRE AND POST PRUNING OPERTATION
Type of the Article	

Review Form 1.7

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>Fair</p> <p>fair</p> <p>fair</p> <p>fair</p> <p>fair</p> <p>good</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>Fair</p>	
<p>Optional/General comments</p>	<p>The introduction fails to articulate the central objective or purpose of the article. A clearly defined aim is essential to provide readers with a concise overview of the study's intentions. Inadequate</p> <p>The methodology section lacks the necessary details to comprehensively explain how the study was conducted. It require a thorough understanding of the research design and data collection methods employed.</p> <p>The article falls short in elucidating the treatment methods denoted as T0 – T8. The methodology section should encompass detailed descriptions of each treatment, encompassing their application procedures and controlled variables.</p> <p>The results section inadequately delves into an in-depth analysis and interpretation of the collected data. It is imperative to expound on the significance of the findings in relation to the study's objectives.</p> <p>Given the nature of foliar application, it is crucial to address any potential concerns related to toxicity, whether they pertain to human health or environmental impacts. Additionally, if the study is pertinent to pest management, it should explore the treatment's efficacy in managing pests and its potential effects on non-target organisms.</p>	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Are there ethical issues in this manuscript?</p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
