

**Review Form 1.7**

Journal Name:	<b>Journal of Geography, Environment and Earth Science International</b>
Manuscript Number:	<b>Ms_JGEESI_106272</b>
Title of the Manuscript:	<b>Evaluation of environmental and social impacts of extraction quarry of raw materials : case of the ETOA clay quarry, Yaounde 3</b>
Type of the Article	<b>Original Research Article</b>

**PART 1: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</b>
<p><b>Compulsory</b> REVISION comments</p> <p>1. <b>Is the manuscript important for scientific community?</b> (Please write few sentences on this manuscript)</p> <p>2. <b>Is the title of the article suitable?</b> (If not please suggest an alternative title)</p> <p>3. <b>Is the abstract of the article comprehensive?</b></p> <p>4. <b>Are subsections and structure of the manuscript appropriate?</b></p> <p>5. <b>Do you think the manuscript is scientifically correct?</b></p> <p>6. <b>Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</b></p> <p><b>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</b></p>	<p>=This study is very important and must be prepared and submitted to the competent authority before the start of the project to avoid or reduce environmental damage during the operation of the project. International and local environmental standards and controls must also be adhered to. Control over these projects must be tightened to ensure that the facility adheres to the self-monitoring plan and the environmental impact mitigation plan during operation.</p> <p>=The title is appropriate if it is a study submitted before the project is operational or established. With the addition of the country – Cameroon</p> <p>=You need to reformulate and check the grammar, for example: (on the extraction quarry). Does the environment affect the quarry? Correct (of the extraction). And the same note in the Conclusion , line 1, page 11</p> <p>=Somewhat suitable, as part of an integrated environmental impact assessment study for the operation of a project. However, he likes to add a subtitle after the introduction (the study area) and it is marked with maps and coordinates</p> <p>= To some extent</p> <p>= Sufficient, considering the article is part of a study to assess the environmental impact of the project to be established</p> <p>= It is necessary to clarify the classification of the project according to the World Bank classification and the local classification of Cameroon. In the introduction or in Material and methodology</p>	
<p><b>Minor</b> REVISION comments</p> <p>1. <b>Is language/English quality of the article suitable for scholarly communications?</b></p>	<p>You need to check and rephrase some sentences</p>	
<p><b>Optional/General</b> comments</p>	<p>-----</p>	

**PART 2:**

	<b>Reviewer's comment</b>	<b>Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</b>
<p><b>Are there ethical issues in this manuscript?</b></p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
