| <p><b>Compulsory</b> REVISION comments</p> <p>1. <b>Is the manuscript important for scientific community?</b><br/>(Please write few sentences on this manuscript)</p> <p>2. <b>Is the title of the article suitable?</b><br/>(If not please suggest an alternative title)</p> <p>3. <b>Is the abstract of the article comprehensive?</b></p> <p>4. <b>Are subsections and structure of the manuscript appropriate?</b></p> <p>5. <b>Do you think the manuscript is scientifically correct?</b></p> <p>6. <b>Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</b></p> <p><b>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</b></p> | <p>1. <b>Determining the importance of a manuscript for the scientific community depends on several factors, these are (Relevance; Originality; Methodology; Impact; ...etc). The manuscript have a significant impact on the field.</b></p> <p>The article's title, "Assessing the Livelihood Vulnerability to Impact of Climate Change in Western Bhutan," seems appropriate given its goal of examining how vulnerable Western Bhutan's livelihoods are to the effects of climate change. It is concise and illustrative, giving readers a clear idea of the purpose and scope of the essay. It mentions the study's main components, including evaluation, livelihood vulnerability, the effects of climate change, and the study's focus region (Western Bhutan).</p> <p>The abstract appears to be quite comprehensive in terms of summarizing the key aspects of the study conducted in Western Bhutan. It covers the following important elements</p> <p>The subsections and structure of a manuscript are partially appropriate.</p> <p>The references are sufficient and recent.</p> <p>PLS consider checking the journal's reference formatting and citation style guidelines.</p> |                                                                                                                                                                               |
| <p><b>Minor</b> REVISION comments</p> <p>1. <b>Is language/English quality of the article suitable for scholarly communications?</b></p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             | <p>the suitability of language and writing quality are good.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |                                                                                                                                                                               |
