

## Review Form 1.7

Journal Name:	<b>Journal of Advances in Medicine and Medical Research</b>
Manuscript Number:	<b>Ms_JAMMR_106967</b>
Title of the Manuscript:	<b>Improved Range of Motion and Decreased Complications After Total Knee Arthroplasty with Use of Plethy Recupe Remote Patient Monitoring – A Retrospective Study</b>
Type of the Article	<b>Original Research Article</b>

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p><b>Compulsory</b> REVISION comments</p> <p>1. <b>Is the manuscript important for scientific community?</b> (Please write few sentences on this manuscript)</p> <p>2. <b>Is the title of the article suitable?</b> (If not please suggest an alternative title)</p> <p>3. <b>Is the abstract of the article comprehensive?</b></p> <p>4. <b>Are subsections and structure of the manuscript appropriate?</b></p> <p>5. <b>Do you think the manuscript is scientifically correct?</b></p> <p>6. <b>Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</b></p> <p><b>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</b></p>	<p>1. <b>Yes. It is important for the community.</b></p> <p>2. <b>The title is optimal</b></p> <p>3. <b>The abstract is well written.</b></p> <p>4. <b>Subsections are correctly and methodologically separated.</b></p> <p>5. <b>Introduction starts by discussing the incidence and then immediately goes into treatment without providing more comprehensive background on the clinical significance of femoral neck fractures. Importance of a standard guideline in treating femoral neck fractures is not stressed enough. What could be the potential consequences of not having a standard guideline?</b></p> <p>6. <b>References are up-to-date.</b></p> <p>The introduction could benefit from a clearer structure by starting with the clinical significance of femoral neck fractures, their prevalence, then discussing the existing treatment methods and their challenges.</p>	
<p><b>Minor</b> REVISION comments</p> <p>1. <b>Is language/English quality of the article suitable for scholarly communications?</b></p>	1. Yes	
<b>Optional/General</b> comments		

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
