

Review Form 1.7

Journal Name:	International Journal of Plant & Soil Science
Manuscript Number:	Ms_IJPSS_107819
Title of the Manuscript:	Impact of industrial effluent on physico-chemical properties of soil in Unnao District of Uttar Pradesh
Type of the Article	Short Research Articles

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>Yes</p> <p>Yes</p> <p>Author need to to work out more in the abstract section. Author should take care of everything while writing i.e units being used, meaning of the symbol, sentence formation and so on.</p> <p>Although sub-section and structure of the manuscript is somewhat o.k. but presentation of the work and the findings are not written well.</p> <p>No, Author need to work out more on this. He should study few similar paper published in good journals to understand how the research work can be written and well presented.</p> <p>Some recent references need to be included.</p> <ul style="list-style-type: none"> • Data part is very poorly presented. • Symbol used in the table is not explained as to what it represents. • Soil data is missing that will help us in doing the comparative study and understand the changes that takes place due to application of industrial effluents. • Analysis part is poorly presented. <p><u>Regarding Reference</u></p> <ul style="list-style-type: none"> • A particular style should be followed for the entire referencing portion. • Journal name should be in italic. <u>Uniformity is missing here.</u> • Year should be like (1999). <u>Uniformity is missing here.</u> • Comma, full stop, colon all should be carefully written and should be uniform throughout. <u>Uniformity is missing here too.</u> • Old references have been used. Author should go for some latest references and latest study. 	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>Author should work on this in order to improve the quality of the paper.</p>	
<p>Optional/General comments</p>	-	

PART 2:
