<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>Although the research article's structure is fairly thorough, this research was conducted on a sample of humans. and consists of pupils. There can be a weaker group. Human ethics should be considered by the researcher in this study.</p> <p>The title is completed.</p> <p>The research abstract is clearly written. Because the sample is human and is a group of students, which may be a vulnerable group, the researcher should also specify ethics in human research.</p> <p>Let the researcher increase the benefits that will be gained from this research and if the sample group can be changed from students to other groups, is it possible and what are the benefits to education in the Philippines?</p> <p>This study paper is almost perfect in its entirety. Enhance ethics in human research, especially on disadvantaged groups, and accuracy in research methodologies.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>		
<p>Optional/General comments</p>
