

Review Form 1.7

Journal Name:	International Journal of Plant & Soil Science
Manuscript Number:	Ms_IJPSS_107879
Title of the Manuscript:	Green Manuring and Nitrogen Management for Sustainable Productivity of Niger [Guizotia abyssinica (L.f.) Cass.] in Odisha
Type of the Article	Original Research Article

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <ol style="list-style-type: none"> Is the manuscript important for scientific community? (Please write few sentences on this manuscript) Is the title of the article suitable? (If not please suggest an alternative title) Is the abstract of the article comprehensive? Are subsections and structure of the manuscript appropriate? Do you think the manuscript is scientifically correct? Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>		
<p>Minor REVISION comments</p> <ol style="list-style-type: none"> Is language/English quality of the article suitable for scholarly communications? 	<p>I would like to thank firstly the Editor for the invitation and secondly the authors for the interesting paper done.</p> <p>There are some writing errors that must be corrected, for example: 1 in the Introduction "tonnes" should be tones; 2 in the method section "programme" should be program; 3 sometimes niger is written in capital letters and sometimes in lower case. Therefore, authors must review the English. The study on the cultivation of niger is well founded in terms of its qualities as a product and the authors show how its production can be increased in parallel with an increase in yield, which reduces the cost-benefit ratio. The methodology allows the study to be replicated and the results and conclusion will benefit those interested in the area.</p>	
<p>Optional/General comments</p>
