

Review Form 1.7

Journal Name:	Asian Journal of Probability and Statistics
Manuscript Number:	Ms_AJPAS_107389
Title of the Manuscript:	The Beta Transmuted Standardized Half Logistic Distribution: Properties and Application
Type of the Article	Original Research Article

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>You have to mention which statistical program (with reference) you used to get hold of result tables.</p> <p>Statistical Analysis of the Beta Transmuted Standardized Half Logistic Distribution: Properties, Estimation, and Real-Data Application.</p> <p>Yes. the abstract provides a good overview of the main contributions and findings of the paper.</p> <p>Ok.</p> <p>Ok.</p> <p>Read the journal's author guideline re-write citations, tables and references follow the journal formatting.</p> <ul style="list-style-type: none"> - Adeyinka Femi Samuel, Olapade Akintayo Kehinde (2019). A Study on Transmuted Half Logistic Distribution: Properties and Application. International Journal of Statistical Distributions and Applications. 5(3). - Phillip Oluwatobi Awodutire, Akintayo Kehinde Olapade, Oladapo Adedayo Kolawole (2016). The Type I Generalized Half Logistic Survival Model. International Journal of Theoretical and Applied Mathematics. 2(3). 	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	Ok.	
<p>Optional/General comments</p>	Add to abstract: Furthermore, the distribution is applied to a real-life dataset, demonstrating its superior performance in terms of producing a better fit compared to its submodels. This research contributes to the field of probability distributions and provides a valuable tool for modeling and analyzing various types of data.	

Review Form 1.7

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>	

Reviewer Details:

Name:	Mohamed Amraja Mohamed
Department, University & Country	Sebha University, Libya
