

Review Form 1.7

Journal Name:	European Journal of Nutrition & Food Safety
Manuscript Number:	Ms_EJNFS_106313
Title of the Manuscript:	Nutritional Significance and Parasitic Contamination of Vegetables: A Comprehensive Review
Type of the Article	

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>The topic of the manuscript is interesting, however it may be relevant to know the current state of contamination of vegetables for human consumption with parasites.</p> <p>Yes, the title is appropriate, clear and precise.</p> <p>Yes, the summary is clear and precise, accurately summarizing the work presented.</p> <p>Yes, the structure of the manuscript and its subsections are adequate and sufficient for a good presentation.</p> <p>Yes, the manuscript is scientifically correct, the subject of the review was adequately fulfilled, however, in my personal opinion they could have included some graphics.</p> <p>The references are sufficient and current, but I suggest reviewing the data on E. histolytica, since this particular species only parasitizes humans; the Entamoebas present in other mammals are from other species. You could review this work: Ximénez C, Morán P, Rojas L, et al. Novelties on amoebiasis: A neglected tropical disease. J of Global Infectious Diseases. Apr-Jun 2011, Vol:3 Num.2; 166-174. DOI: 10.4103/0974-777X.81695.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>The language and writing of the manuscript have the necessary quality to be published. It only requires a minimal revision and improving the presentation of the tables.</p>	
<p>Optional/General comments</p>	<p>Just review and correct the information on E. histolytica, and improve the presentation of the tables.</p>	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Are there ethical issues in this manuscript?</p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i> No ethical issues are required as it is a review manuscript.</p>
