

Editor's Comment:

I read closely the material you sent me. My editorial decision for manuscript number: 2023/SAJSSE/107807 is to publish as is with minor changes.

I suggest revised title: "Quantitative Descriptive Analysis of Comparative Advantages of Fisheries Commodities in Baubau City, Southeast Sulawesi, Indonesia"

The article is an impressive research article. The article is well-written, most interesting and important. The authors' main conclusions make good common sense to me.

Skipjack Tuna is the commodity which has comparative and competitive advantages in Baubau City. Batupoaro District is the center location of Skipjack Tuna in Baubau City.
