

Review Form 1.7

Journal Name:	Asian Journal of Probability and Statistics
Manuscript Number:	Ms_AJPAS_105160
Title of the Manuscript:	PROJECT PLANNING APPLICATION TO JUICE PRODUCTION USING PERT/CPM TECHNIQUE: A CASE STUDY.
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

Review Form 1.7

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p><u>Compulsory</u> REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>Yes</p> <p>Yes</p> <p>Yes</p> <p>Yes</p> <p>Yes</p> <p>Yes</p>	
<p><u>Minor</u> REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>Yes</p>	
<p><u>Optional/General</u> comments</p>	<p>How does the application of the PERT/CPM technique contribute to project planning specifically in the context of juice production, as described in the title?</p> <p>What are the key steps and components involved in applying the PERT/CPM technique to plan and manage a juice production project, as discussed in the case study?</p> <p>How does the case study highlight the benefits or advantages of using the PERT/CPM technique for project planning in the juice production industry?</p> <p>Can you explain the role of the case study in illustrating the practical implementation and outcomes of utilizing the PERT/CPM technique for project planning in juice production?</p> <p>How are the concepts of critical path, activity sequencing, and time estimation integrated into the PERT/CPM technique as demonstrated in the case study related to juice production?</p> <p>What challenges or complexities in juice production project planning are addressed through the application of the PERT/CPM technique, as presented in the case study?</p> <p>Could you provide insights into any specific project milestones or objectives that were achieved through the effective use of the PERT/CPM technique in the juice production project described? How does the case study's focus on project planning for juice production using the PERT/CPM technique contribute to the broader understanding of project management methodologies in various industries?</p> <p>Based on the findings and experiences highlighted in the case study, what recommendations or insights can be drawn for other businesses considering the adoption of the PERT/CPM technique in their project planning processes?</p>
