

Editor's Comment:

In studying the report I found that

1. Title is relevant
2. Abstract is significant.
3. Introduction is explanatory.
4. Literature review is sufficient.
5. Results and discussion are analytical.
6. Conclusion is comprehensive.
7. References are enough.

I **recommend** the manuscript entitled "**Business Plan and Implementation Report on Star-Egg: Omega-3-Enriched Egg in Sleman Yogyakarta**" for **publication**.
