	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments 1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript) 2. Is the title of the article suitable? (If not please suggest an alternative title) 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. (Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)	Basic work Title is irrelevant, no results reg. salinity screening Not in a precise manner, somany grammatical error, Oks As per the title, the salinity related research is not being taken Old references, recent reerence may be added	
Minor REVISION comments 1. Is language/English quality of the article suitable for scholarly communications?	Based on my view, as per the title salinity screening is not taken, abstract should be revised along with all variability parameters, so many grammatical errors, so many sentences are in copy and paste mode, try to give very précised manner	
Optional/General comments	Through major corrections required	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
