

**Editor's Comment:**

This Ms. can not be acceptable in its current form. I have some minor comments: In Introduction only two references are cited.

Authors must strengthen the Introduction section by incorporating few recent relevant references (

1. <https://doi.org/10.1016/j.biortech.2021.126580>

2.

<https://doi.org/10.1016/j.seppur.2023.124018>

3.

<https://doi.org/10.3390/bioengineering10020152>

after this sentence ..

" Bio-ethanol is a liquid biofuel which can be produced from several different biomass feed stocks and conversion technologies"

Author must include some more studies to compare their findings with others in discussion section.

After incorporating all these, this Ms. can be acceptable.
