

Editor's Comment:

The manuscript is highly valuable but I have some comments and suggestions.

- 1) there are no citations of ref. 12 (Satisai et al) and ref 4 (Chauhan et al) in the text
- 2) Taking into account the importance of the data presented not only for India, but for other countries, I suppose, that it is desirable to add a map of India with the indication of Manipur district and places of investigation
- 3) It is desirable to decipher 'MGNERGA (Mahatma Gandhi National Rural Employment Guarantee Act) for foreign readers.

In a whole, the manuscript is fine and will certainly attract the scientific and social community.
