

Review Form 1.7

Journal Name:	International Journal of Environment and Climate Change
Manuscript Number:	Ms_IJECC_105748
Title of the Manuscript:	Evaluation of Different Non-Conventional methods of Cultivation on yield and biological efficiency of Paddy straw mushroom (<i>Volvariella volvaceae</i>).
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijecc.com/index.php/IJECC/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>The manuscript seems to be relevant and potentially valuable for the scientific community, especially for researchers and practitioners in the field of mushroom cultivation and agricultural science. The study explores different cultivation methods for a specific mushroom species and provides insights into which methods yield the best results in terms of yield and biological efficiency.</p> <p>"Enhancing Yield and Biological Efficiency of <i>Volvariella volvaceae</i> Through Non-Conventional Cultivation Methods"</p> <p>Yes</p> <p>Yes</p> <p>Yes</p> <p>While many of these references provide valuable insights into various aspects of paddy straw mushroom cultivation, it would be beneficial to include more recent studies that might have explored advanced techniques, technological advancements, and new findings related to the cultivation of <i>Volvariella volvaceae</i>. This would help ensure that the manuscript is grounded in the most current research and developments in the field.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>There are many grammatic errors that needs to be corrected</p>	
<p>Optional/General comments</p>		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Are there ethical issues in this manuscript?</p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
