Review Form 1.7

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? Yes but not in its current form</p> <p>2. Is the title of the article suitable? Include narrative review and focus on which aspect of diabetes will be discussed</p> <p>3. Is the abstract of the article comprehensive? Fair</p> <p>4. Are subsections and structure of the manuscript appropriate? Fair</p> <p>5. Do you think the manuscript is scientifically correct? Yes but it's lacking</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. Yes, but more can be added on this topic (Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>This is a narrative review of the effects of occupational chemical exposure on diabetes mellitus The title can be better improved to include 1) Narrative review 2) DM-related outcomes</p> <p>Introduction is too long and should focus on the topic of occupational chemical exposure There is no need to cover diabetes in such details as this is not the focus of the review There is no discussion, what percentage of diabetes is due to occupational chemical exposure?</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications? Yes</p>		
<p>Optional/General comments</p> <p>Nil</p>		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Are there ethical issues in this manuscript?</p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
