

Review Form 1.7

Journal Name:	Asian Journal of Biotechnology and Genetic Engineering
Manuscript Number:	Ms_AJBGE_106008
Title of the Manuscript:	Identification of Molecular Diversity in Gossypium hirsutum L. Against Whitefly Resistance Using SSR Markers
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <ol style="list-style-type: none"> 1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript) 2. Is the title of the article suitable? (If not please suggest an alternative title) 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>Yes It's well-structured, moving from the general importance of cotton to the specific problem of pests.</p> <p>Yes he title effectively summarizes the content of the manuscript. However, it might be helpful to include the objective or the main findings in the title to make it more informative.</p> <p>The abstract mentions the significance of whitefly as a cotton pest, which is important for context. However, it could benefit from briefly mentioning the practical implications of the findings. How might this research impact cotton breeding or pest management?</p>	
<p>Minor REVISION comments</p> <ol style="list-style-type: none"> 1. Is language/English quality of the article suitable for scholarly communications? 	Average	
<p>Optional/General comments</p>	Overall, this manuscript provides valuable insights into the genetic diversity of cotton cultivars regarding whitefly resistance. With some minor revisions and clarifications, it can be a valuable contribution to the field of cotton breeding and pest management.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Are there ethical issues in this manuscript?</p>	<p>(If yes, Kindly please write down the ethical issues here in details)</p>
