

Review Form 1.7

Journal Name:	International Research Journal of Pure and Applied Chemistry
Manuscript Number:	Ms_IRJPAC_104886
Title of the Manuscript:	Correlation between EMF and Gibbs free energy, and the relative concentration of electrolytes in a Concentration Cell
Type of the Article	

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>First, I would like to congratulate the authors for their excellent work, below are some recommendations to qualify the work, such as:</p> <ul style="list-style-type: none"> • I suggest revising the Title of this work, creating a more appropriate title and subtitle; • Rewrite the Abstract of this work, highlighting the relevance and importance of this work for the world scientific community, between 150-250; • Rewrite and insert 5 (the five) most relevant keywords; • Please insert more information and References in the Introduction of this work; • I suggest revising the last paragraph of the Introduction, please rewrite reporting the purpose of this work; • Please explain in more detail the figures presented in the article, it highlights their importance for the present work; • Please better detail the Method employed in this article, describe more; • Rewrite the 1st paragraph of the RESEARCH QUESTION, be clearer and more detailed; • Describe and insert more relevant information in the Conclusion of this work; • Please insert more References in this current high-impact work (2018-2023), preferably from the International Research Journal of Pure and Applied Chemistry; • I suggest inserting one more topic, soon after the conclusion of this work, called Future Works, evidence of what is expected for the future of this work, it is worth commenting to highlight the importance of this work for the World Scientific Community; 	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>		
<p>Optional/General comments</p>		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Are there ethical issues in this manuscript?</p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
