

Editor's Comment:

The manuscript, 2023/JAMMR/105039 entitled "Is the bond strength of repairs influenced by the use of different bulk fill and nanoparticulate composites aged by acidic solutions that simulate the oral conditions of patients with bulimia nervosa?" (after the revision, "The effect of aging by acidic solutions, that simulate the oral conditions of patients with nervous bulimia, on the bond strength of repairs influenced using different bulk fill and nanoparticulate composites") is ready for publication. My final editorial decision about the manuscript is "ACCEPT".
