<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>YES</p> <p>NO</p> <p>NO</p> <p>YES</p> <p>NO (refer to the temperature, 100°C)</p> <p>NO</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>The writing must be revised by a native American.</p>	
<p>Optional/General comments</p>	<p>The title is not accepted. The phrase "for the first time" must be removed, the type of infection must be reported and the name of the country seems not necessary.</p> <p>I think it is better to explain the study in the abstract with more main details.</p> <p>"hearing impairment" is not a real keyword. The possible name of the infection must also be considered as a keyword.</p> <p>The goal of the study must also be added at the end of the introduction.</p> <p>The temperature was 100??? Are you kidding?</p> <p>Figure 2 has no caption.</p> <p>The conclusion must be revised based on the real findings of the manuscript not analysis of other studies.</p> <p>There were many out of date citations. The authors should update all references since 2018.</p>
