	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>It gives an overview as Nepal, namely Bagamiti Province has organized a vaccination campaign during two consecutive years against PPR, which has proved to be effective evaluated by its results. I think that it is a general manuscript , which remember and describes the main aspects of the PPR, and which was the employed strategy . Concerning scientific value, it is a basic manuscript dealing with PPR.</p> <p>Yes</p> <p>Yes</p> <p>acceptable</p> <p>This is more an overview of PPR in Bagmati Province. This is not a real and detailed scientific manuscript</p> <p>Yes</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>English text needs to be improved. Some sentences are not correct, we also detect punctuation faults. I will go in some details. If text lines were numbers it was easier to show my suggestions. In chapter transmission , it is not easy to understand last two sentences "which can result in indirect transmission". I don't understand what describes , Figure 3. (MT of Bagamati). Define better a weekly vaccination program?. It means during a week in all districts ? . . Near Objectives of the program : ..." who depend on sheep and goat farming may leave the industry?: What means?. In tables Vaccine Coverage report, progress report (column) is not clear?. Perhaps coverage rate?. Last line before title "problems encountered in conducting the vaccination program". What means" ...till the remaining vaccine was done....?? (What means). Explain better the serum evaluation method after vaccination?. I see these values in 29 goats. This is the scientific details of the manuscript which are insufficiently described.. For me these manuscript is more a "case report", not a "real scientific manuscript", but this paper has its value.</p>	
<p>Optional/General comments</p>	<p>Accept after moderate revision.</p>	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Are there ethical issues in this manuscript?</p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
