(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)	 1. The manuscript is well written and presents interest for the scientific community. 2. Title is ok. 3. Abstract is ok. 4. Structure is ok; 5. Manuscript is correct. 6. References are ok. My suggestion regarding this review is that for each subsection of chapter "Contamination levels and risk assessment of PAHs in the Foods in Nigeria" data should be presented in a table. Thus information is easier to comprehend and the comparison of the studies used for this review will be evidenced better.	
Minor REVISION comments 1. Is language/English quality of the article suitable for scholarly communications?	Yes
