

### **Editor's Comment:**

Regarding the above-sent paper:

1. First of all, I'm missing something . What is the meaning of Casino Royale here?
2. Secondly, a better title: the importance of Locus of Control in basic financial knowledge in Makassar and Surabaya.
3. I've been waiting to be presented theLOC as a psychological approach in management and for people. The importance of reinforcements, with the two major goals: rewards and punishments (failures)
4. Again the final part Conclusions and Recommendations (at the plural).

References are wrong written: the authors to be written in the alphabetical order or the author's last name and, immediately after, the year of publishing.

Thus, the first reference is Anggarini DR (2021), Anggreyani AD (2018) and Anggreyani AD (2023) and the last reference Yushar MM et al. (3023). It is a position Dr. Subagyo MM & Purnomo, Hery (2022) to be put at S.

Another important aspect is that references in the text to be written without the position from the list of References into the brackets. Only the year of publishing into the brackets: example Kristanto SA et al. (2021), especially since the existing reference is wrong written, 10 instead of 11.

Medium corrections are needed and then ok for publishing.
