EDITORIAL COMMENT'S on revised paper (if any)	Authors' response to editor's comments
<p>1. Discuss the normality test. If not performed, check the data if it is drawn from a normally distributed population to ascertain the use of parametric tests such as ANOVA, otherwise use the nonparametric Kruskal-Wallis.</p> <p>2. Check the references if 75% new studies (over the last 3 to 5 years) and 25% more than 5 years old.</p>	<p>1. ANOVA was used since there was a comparison of the financial literacy among teachers classified in the three generations. This was already explained in the statistical treatment section.</p> <p>2. Only 3 out of 18 (16.7%) are more than 5 years old.</p>
