

Review Form 1.7

Journal Name:	Archives of Current Research International
Manuscript Number:	Ms_ACRI_115391
Title of the Manuscript:	Pesticide Pressure on Insect and Human Population-A review
Type of the Article	

Review Form 1.7

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>yes</p> <p>yes</p> <p>yes</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>yes</p>	
<p>Optional/General comments</p>	<p>comments</p> <ul style="list-style-type: none"> • Most of the scientific references are old, and the researcher in the introduction did not support any modern scientific reference • The researcher did not succeed in clearly defining the objectives or purpose of the research paper • All statistics in the field of agricultural production that the researcher adopted are very old • The title of some paragraphs of the research paper must be modified according to the content of the paragraph • Does the researcher believe that the title of the research paper is consistent with the title of the paragraphs within the research paper? • I think that the researcher neglected the issue of agricultural guidance on the optimal use of pesticides • If the decrease in food supplies is due to the increase in population, do I think that poor distribution is considered one of the reasons? • In conclusion, the researcher reached a recommendation to increase investment in the field of scientific research, and I believe there are other areas of increasing awareness among consumers and farmers through workshops and courses.
