

Editor's Comment:

Kindly find the attached file, the research paper should be published after the complete incorporation of suggestion by the corresponding author as given in the review form

quantification required in abstract for holistic approach, Lacking of key research highlights in the concerned abstract of the paper. Revision is required

the references are insufficient and require new / recent reference, several references are missing

It is also not arranged as per format of journal, which is essentially required

1. The introduction part need to well structured, it is submitted in immature state. More reference should be added in this section.
2. Material and methods part is too short and having lack of structure, kindly elaborate the methodology.
3. The result and discussion is not written with the reason and proper justification of the result and discussion parts are extremely poor, the results part is needed to be statistically sound.
4. At every page comments and suggestion has been added for update, please incorporate
5. Results need more explanation along with elaborative discussion with interlinkage of parameters. Not sufficient in discussion and also, not recent.
6. Conclusion part is poor, it should be based on the given contents.
7. several of the references are not in accordance to the format of the journal, and also only few references are matching.
8. Most of the references are not mentioned in the text but it is added at the end of reference. Please add that one in text or remove from reference list.
9. Review has been done in track change method also, and comments added in box for incorporation

Language/English is Not suitable, up gradation required.
