If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>It is ok, but better to modify. A sample title can be like this: STIMULATEING CLASSROOM PARTICIPATION: CASE STUDY OF CLASS III LEARNERS AT AREKHA PRIMARY SCHOOL</p> <p>Yes it is comprehensive Sure subsections are properly arranged and suitable to a standard research article NA- It is not a scientific study, but an article based on learning theories.. In that sense it is factual. Yes the references are recent and suitably connected to the topic.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>The language of the article is suitable for a research article.</p>	
<p>Optional/General comments</p>	<p>It is clear that the article is the result of continuous study in the area of learner participation at lower class rooms. The method the author adopted looks effective and came out with some creative suggestions for the academia to follow and work upon. More over it is the result of genuine research work done with first hand experience.</p>
