(If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>I felt that this manuscript is important for scientific community.</p> <p>Intentional self-harm is a major issue in the developing world. In the study it was clearly mentioned regarding the factors responsible for the self-poisoning that is interpersonal conflict, followed by family conflict and conflict with the mother and father, is a psychosocial component contributing to acute poisoning. Academic and romantic failure were identified as the main causes of school-related problems.</p> <p>My suggestion is if any intervention studies added to the document which makes conscious to individuals to survive and live well for life.</p> <p>This sounds good the way it is.</p> <p>Yes</p> <p>Yes</p> <p>Yes</p> <p>Yes. Adding interventional studies in the document and putting few more references will be good.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>Yes</p>	
<p>Optional/General comments</p>
