ReviewForm 1.7

PART1:ReviewComments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write a few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>1. Yes</p> <p>2. Yes</p> <p>3.No It still needs to be comprehensive. Data collection, processing, and presentation techniques in the abstract need to be detailed.</p> <p>4. Yes</p> <p>5. Yes</p> <p>6. No</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>Acceptable</p>	
<p>Optional/General comments</p>	<p>This manuscript is generally reasonable. Need confirmation and revision. Abstract</p> <p>The problem statement at the beginning of the sentence needs to be presented, not a definition of an internship.</p> <p>The flow, procedures/techniques for collecting, analyzing, and presenting data in the quasi-experimental method must be presented in detail.</p> <p>Need to present limitations and recommendations.</p> <p>INTRODUCTION</p> <p>In general, problems in student learning in clinical pharmacy during internships occur due to lack of experience, so students are restless, shocked, and need to adapt.</p> <p>Lack of orientation, support, supervision, communication, orientation, and collaboration, and there needs to be a gap between the curriculum in educational institutions and the needs during internships. Some of these issues need to be reinforced in this introduction.</p> <p>Problems at the research location need to be elaborated in depth.</p> <p>It is best to present the research question at the end of the introduction. Method</p> <p>There is a need to justify using quantitative approaches and quasi-experimental designs.</p>
