

Editor's Comment:

Article is suitable for publication with following suggestions:

1. Paper seems like a mini thesis in which the thesis format has been adopted. Hence follow Review/research article format.
2. conclusion should be precise, revise them.
3. Revise abstract with meaningful and easier sentences.
4. Revise highlighted line.
5. Remove question marks from title , title also suggested by me in text.
6. Reduce/remove unnecessary text.
7. Add references as per the text.
8. There is no need to red highlighted lines. remove them.
