It contributes to the scientific community by providing empirical evidence and insights into the complex relationship between the digital economy, industrial structure, technological progress, and environmental sustainability. The use of robust methodology and analysis of provincial panel data from 2008 to 2020 enhances the reliability and relevance of the findings. Overall, the manuscript is important for the scientific community as it sheds light on a crucial aspect of promoting green and low-carbon transformation in export trade.</p> <p>2- The title "Research on the Influence of Digital Economy on the Implied Carbon Intensity on China's Exports" is suitable as it clearly indicates the focus and scope of the study. However, it could be slightly revised for better readability:</p> <p style="text-align: center;">"Exploring the Impact of the Digital Economy on China's Export Implied Carbon Intensity: A Provincial Panel Data Analysis (2008-2020)"</p> <p>This revision maintains the essence of the original title while improving readability and clarity.</p> <p>3- The abstract provides a comprehensive overview of the manuscript. It clearly outlines the research objectives, methodology, key findings, and implications.</p> <p>4-yes</p> <p>5-yes</p> <p>6- The references in manuscript are up to date until 2023, it indicates that it included recent literature, which is good practice for a research article..</p>
