

**Editor's Comment:**

I read the manuscript.

Few queries

1. Is it ethically permitted to perform gene editing of live stock ? What are the regulations of genetic manipulations in the countries to which authors belong to?

In the era of plant based diet, vegan diet, 3D printing of meat, cultured meat or cellular agriculture, is this manuscript significant?

**Editor's Details:**

Dr. Rama Bhadekar nee Neeta Kulkarni  
Vice Principal & Associate Professor, Rajiv Gandhi Institute of IT and Biotechnology, Bharati Vidyapeeth (deemed to be University), India.
