Type of the Article	

Review Form 1.7

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <ol style="list-style-type: none"> Is the manuscript important for scientific community? (Please write few sentences on this manuscript) Is the title of the article suitable? (If not please suggest an alternative title) Is the abstract of the article comprehensive? Are subsections and structure of the manuscript appropriate? Do you think the manuscript is scientifically correct? Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>The script is fine overall and holds statistical relevance and value as it gives insight into teachers integrating tablets into teaching and learning in secondary schools in Zanzibar. Overall it seems to be on current reports and could be a good addition to the scientific community.</p> <p>The Title of the article though talks about the overall topic it could be better and catchy like, 'Digital Tablet Integration in Secondary Education: A Zanzibar Case Study'. The Default title also is good.</p> <p>The abstract is on point and comprehensive without side-talk which is good. A little bit of more key words in abstract could be added.</p> <p>Referencing not right, The references are sufficient and of recent years but the quoting of the references is not up to the mark and conventional, it is suggested to watch the previous published journals for reference. It should be by the number which will help the reader. no visual tables and Photo graphics were seen. some pictorial representation could be inserted like chart or graph etc. The text is long and could be compacted. Please Specify the tablets as digital tablets. Give Full form of ICT and give it some more elaboration. Give specific details about the place where the study was conducted For example School Names etc. For Example, specific questioners or different specific data could be added. Give specific recommendation for future in a different Section. Overall the structure is correct but could be better to enhance the quality. Small Punctuation formatting issues were found.</p> <p>The given manuscript is checked and no problems were found at the review, the suitable could use graphical representations to enhance the quality. Some graphical representations of the given could also be added to enhance quality. So we might say it seems to be scientifically correct.</p> <p>Referencing not right, The references are sufficient and of recent years but the quoting of the references is not up to the mark and conventional, it is suggested to watch the previous published journals for reference. It should be by the number which will help the reader.</p>	
<p>Minor REVISION comments</p> <ol style="list-style-type: none"> Is language/English quality of the article suitable for scholarly communications? 	<p>It is suggested to write it in a passive format to make it more neutral in language 'I', 'We' these kind of language might be avoided. Quality is fine enough but could be upgraded.</p>	
<p>Optional/General comments</p>		

Review Form 1.7

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
