

Editor's Comment:

I have thoroughly read the final draft submitted by the authors and the comments of the peer reviewers. The authors have very well written the manuscript titled " Sex and Age Variation in Electrocardiographic Parameters of Apparently Healthy Nigerian Athletes " for Asian Journal of Research in Cardiovascular Diseases".The manuscript is important for the scientific community because it gives very important information about the differences between both sexes in their heart responses to endurance training.

With due consideration the decision on the manuscript titled " Sex and Age Variation in Electrocardiographic Parameters of Apparently Healthy Nigerian Athletes " for the Asian Journal of Research in Cardiovascular Diseases is " Accepted.
