	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <ol style="list-style-type: none"> 1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript) 2. Is the title of the article suitable? (If not please suggest an alternative title) 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>This article is dedicated to an important and engaging research with multi disciplinary subjects analyzing tourism, climate and wildlife in Tanzania.</p> <p>The problem statement is clear, and the study provides interesting insights into the research theme.</p> <p>The title of the research could more clearly be extended to include the pillars of the research.</p> <p>The abstract should include and present more information about the methodology and the results.</p> <p>The research methodology which involves primary and secondary data, is appropriate, adding reliability. The inclusion of t-statistics and degree of significance at GLM models could further validate its reliability.</p> <p>The results are well presented though.</p> <p>It would be beneficiary if the section of the results could include more reliable sources and articles to back up the results.</p> <p>The conclusions section could include more information about the results.</p> <p>The abbreviations full forms need to be mentioned upon the first use, in both abstract and the text.</p> <p>The author needs to employ smaller sentences.</p>	
<p>Minor REVISION comments</p> <ol style="list-style-type: none"> 1. Is language/English quality of the article suitable for scholarly communications? 	<p>The language is correct.</p>	
<p>Optional/General comments</p>
