Yes, important</p> <p>2. It's ok</p> <p>3. Yes, comprehensive</p> <p>4. It's ok</p> <p>5. Yes, scientifically correct</p> <p>6. It's sufficient and recent</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>1. It's suitable for scholarly communications</p>	
<p>Optional/General comments</p>	<p>In our country, this plant is less popular for several reasons: 1) the age at which it begins to produce is quite long; 2) Productivity per unit area is relatively low; and other specific reasons. However, this plant has been known for a long time, and its benefits have been recognized, but it is only used as an intercrop to utilize empty land or other marginal land.</p> <p>Judging from the effectiveness of productive land use and time, this plant is not recommended for use as a monoculture crop. However, viewed from another perspective, in a context that is in accordance with the title of this research, it will certainly be very useful for the purposes of exploring and diversifying alternative food sources, and the effectiveness of utilizing farming inputs which will be very valuable for efforts to increase food security.</p> <p>The results of this study remain of high value for the fields of agriculture and global food security.</p>
