

**Editor's Comment:**

After reading the manuscript and all the related documents I would like to note the following:

The revised manuscript partially complies with the reviewers' recommendations. There is a large discrepancy between the sources cited in the text and the bibliography in every respect - sources cited in the text are absent from the bibliography and vice versa, discrepancy in the years of sources cited in the text and the bibliography (e.g. Germain), etc. (highlighted in yellow). The main contradiction noted by one reviewer, namely between New Delhi and Nigeria, is not reflected in any way. It is imperative for the author to specify what context s/he is referring to.

My decision is that the article cannot be published in this form until the shortcomings pointed out are corrected.
