

Review Form 1.7

Journal Name:	European Journal of Nutrition & Food Safety
Manuscript Number:	Ms_EJNFS_115821
Title of the Manuscript:	Microplastics and Nano-plastics Contamination in Foods: Current Understanding of the Health Impact on Human and Potential Solution
Type of the Article	Review Article

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>The manuscript titled "Microplastics and Nano-plastics Contamination in Foods: Current Understanding of the Health Impact on Human and Potential Solution" delves into the pervasive issue of plastic contamination in our food supply. Through a comprehensive review, it examines the existing knowledge on the health implications of consuming these minute particles and explores potential strategies to mitigate their harmful effects. This research sheds light on the urgent need for interdisciplinary efforts to address this pressing environmental and public health concern.</p> <p>Yes, Title is suitable</p> <p>Yes, it is comprehensive and includes all the point which are present in manuscript.</p> <p>Yes</p> <p>Yes</p> <p>Yes, references are recent and sufficient.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>Yes</p>	
<p>Optional/General comments</p>	<p>This manuscript presents a thorough examination of the growing concern surrounding plastic contamination in the food chain. By synthesizing current research, it elucidates the health implications of ingesting microplastics and nano-plastics and explores potential mitigation strategies. This study underscores the imperative for collaborative efforts among scientists, policymakers, and industries to develop effective solutions to safeguard human health and environmental integrity.</p>
