

Review Form 1.7

Journal Name:	Journal of Engineering Research and Reports
Manuscript Number:	Ms_JERR_115445
Title of the Manuscript:	Design of a Circular Micro-Strip Patch Antenna for Improved Directivity and Gain of Mobile Communication Base Station.
Type of the Article	Original Research Article

PART 1: Review Comments

		Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>1- Yes, it is very important in communications field. In contemporary years, the contemporary trend in the providence of connection is emerging with little cost, little weight, and little profile aerials that can provide high accomplishment in the low distribution. This technical orientation drove to different functions for the design of microstrip antennas. For abounding efficient models, improvements to microstrip antennas meet their competencies. Though, research is still underway to overcome these deficiencies. The circular microstrip patch antenna has a deep utilization to microstrip antennas, especially in the pharmaceutical, militant, mobile, and planetoid transmissions fields.</p> <p>2- DESIGN AND ANALYSIS OF CIRCULAR PATCH ANTENNA</p> <p>3- Yes</p> <p>4- No, there are no references to the mathematical equations.</p> <p>5- Yes</p> <p>6- No,</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	yes	
<p>Optional/General comments</p>	<p>Reviewer's comment</p> <p>1- There are triple familiar techniques of analysis : Transmission line model of the Ava Chamber Multiport network model</p> <p>2- Data analysais should be discussed, with the benifts of MicroStrip of Patch Antenna.</p> <p>3- Comparaision with other related researches.</p>	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Are there ethical issues in this manuscript?</p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
