

Review Form 1.7

Journal Name:	Archives of Current Research International
Manuscript Number:	Ms_ACRI_116239
Title of the Manuscript:	Digital Workforce Dynamics and Transformation: assessing the interplay and impact of AI, Automation, and Employment Policies
Type of the Article	

Review Form 1.7

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>1. Yes, it would likely be significant for the scientific community. It addresses a timely and critical topic at the intersection of technology, economics, and policy. Understanding how AI, automation, and employment policies interact and influence the workforce dynamics is crucial for researchers, policymakers, and industry professionals alike. This manuscript could provide valuable insights, analysis, and potentially actionable recommendations to navigate the evolving landscape of work in the digital age.</p> <p>2. I think new title can be used for attracting the readers. So, the suggested title is "Dynamics of the Digital Workforce: Assessing the Interplay and Impact of AI, Automation, and Employment Policies"</p> <p>3. Yes. The abstract is Exploring AI, automation, and employment policies' interaction effects on workforce dynamics, offering insights crucial for navigating the digital age's labor landscape.</p> <p>4. Yes. It gives more clarity to the manuscript.</p> <p>5. Yes. But there is lack of secondary sources material. So, try to add some review of literature relevant to the topic.</p> <p>6. Please try to provide some additional review of literature from recent publication.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>There are some grammar and spelling mistake in the manuscript. So please try to correct it before publishing it.</p>	
<p>Optional/General comments</p>	<p>Here are some general comments about the manuscript.</p> <p>Clarity and Focus: The title effectively communicates the central themes of the manuscript, focusing on the dynamics of the digital workforce and the interaction between AI, automation, and employment policies.</p> <p>Relevance: The chosen topic is highly relevant to contemporary discussions surrounding the future of work in the digital age, making the manuscript potentially valuable for researchers, policymakers, and industry stakeholders.</p> <p>Scope: The title hints at a comprehensive examination of the subject matter, encompassing various dimensions such as technological advancements, labor market dynamics, and policy implications.</p> <p>Engagement: The title is likely to capture the interest of readers interested in understanding how technological advancements, particularly AI and automation, are reshaping the workforce and how policymakers are responding to these changes.</p>
