If you have suggestion of additional references, please mention in the review form. <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<ol style="list-style-type: none"> Yes, the manuscript you described appears to be important for the scientific community, particularly for researchers and professionals interested in systemic risk within the banking industry and financial markets. It offers a novel approach by integrating the characteristics of platform finance and traditional banking into a complex network framework. By doing so, it breaks through traditional research paradigms, addresses the shortcomings of conventional economic methods, and provides new insights into the topological structure of bank networks and systemic risk. This contribution is likely to broaden the perspective of systemic risk research and could potentially inform policy-making and risk management strategies in the financial sector. Alternate title - Enhancing Financial Stability through Strengthened Risk Management and Supervisory Oversight Based on the information provided in the abstract, it appears to offer a comprehensive overview of the article's content. The abstract highlights the key aspects of the research, including the integration of platform finance and traditional banking into a complex network framework, the breakthrough in traditional systemic risk research paradigms, and the provision of new insights into bank network topological structures. Additionally, it emphasizes the significance of the research in addressing shortcomings in traditional economic methods and broadening the perspective of systemic risk analysis. Overall, the abstract provides a clear and concise summary of the article's objectives, methodology, and contributions. Yes all subsections and structure of the manuscript looks appropriate.
