<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>Yes</p>	
<p>Optional/General comments</p>	<p>The introduction is good and clear, however, the author has not elaborated on the climatic conditions in Nigeria that affect agricultural activities in general and the cocoa crop in particular. I think the climatic trends during the period from the success of the cocoa crop to its decline need to be elaborated in this section. Whether climate change trends influenced the government's decision to switch to oil would be interesting to explore.</p>
