

Editor's Comment:

I have extensively gone through the manuscript: "Fagerstrom Test: A Tool for Assessing Risk of Subclinical Cardiovascular Disease in Nicotine Users" for the Asian Journal of Cardiology Research. The manuscript is important for the scientific community, the Fagerstrom test is quite an efficient modality for assessing the risk of subclinical CV diseases in Nicotine users.

With due consideration the decision on the manuscript titled "Fagerstrom Test: A Tool for Assessing Risk of Subclinical Cardiovascular Disease in Nicotine Users" for the Asian Journal of Cardiology Research is Accepted.
