<p>Minor REVISION comments</p> <ol style="list-style-type: none"> Is language/English quality of the article suitable for scholarly communications? 	<p>English quality of the article can be better.</p>	
Optional/General comments	<p>The lack of a pathogen identification protocol is concerning as it calls into question the accuracy and reliability of the provided data. It is essential to establish clear guidelines and procedures for identifying pathogens in order to ensure the validity of the information being presented. Moving forward, it is recommended that a standardized protocol be implemented to address this issue and improve the overall quality of the data.</p>	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
