EDITORIAL COMMENT'S on revised paper (if any)	Authors' response to editor's comments
<p>Please ask the author to respond to my comments and explain the changes they has made. Replying with only «edited» is not acceptable.</p> <p>Also, please ask the author to highlight changes in the text, preferably with color. The changes must be trackable.</p> <p>The Discussion section introduced by the author is not efficient. The Discussion section must demonstrate the novelty of the findings and the differences of the findings from those made by other scholars. No alternative points of view are now discussed, no previous studies explored and referenced in the Discussion.</p>	<p>Highlighted the edited text. All the future tenses (will) have been converted into past tens. Moreover the discussion is as per article's body and all findings thanks</p>
