

Review Form 1.7

Journal Name:	Journal of Advances in Biology & Biotechnology
Manuscript Number:	Ms_JABB_114546
Title of the Manuscript:	Selected thermotolerant bivoltine hybrids of Bombyx mori L. exhibit desirable heterosis for quantitative traits under Beauveria bassiana infection
Type of the Article	Original Research Article

PART 1: Review Comments

	Reviewer's comment: The MS is fit for publication.	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>1. It is fit for the Scientific community.</p> <p>2. Suitable.</p> <p>3. Yes, comprehensive.</p> <p>4. Appropriate.</p> <p>5. Scientifically correct.</p> <p>6. References are correct.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>It can be considered for a scholarship communication because it has been studied a laboratory scale with limited population of silkworms. However, if this study is supported with large scale field trials it can be considered as scholarly article in future.</p>	
<p>Optional/General comments</p>	<p>The study has been carried out at a very small scale with limited population in the laboratory which is always essential before large scale trial. Efforts are in the right direction to find out suitable breeds for increasing production/productivity.</p>	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Are there ethical issues in this manuscript?</p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
